Object: Transfer of the Thesis B business, variable composition contactors, to Lenoir Elec

Dear Madam, Dear Sir,

We hereby inform you of the transfer of the design, manufacture and commercialization of the variable composition contactors activity by Schneider Electric France to the company Lenoir Elec from Aurela Group, whose headquarters are located Rue Des Sapins, 54730 GORCY, France.

This transfer will be part of an on-going concern sale (« *cession de fonds de commerce* »), which includes contracts which you may have entered into with Schneider Electric France (if applicable), especially when placing orders of variable composition contactors with Schneider Electric France.

As a consequence, and unless you object by February 11th 2022, orders placed with Schneider Electric France and already confirmed by Schneider Electric France, shall be processed by Lenoir Elec; in that respect, and unless you object by February 11th 2022, your contact details will be transmitted to Lenoir Elec.

In any case, this transfer is effective from January 14th, 2022.

In this context, the company Lenoir Elec will respond to all your requests, and in particular any request for a quotation, with the same requirements of professionalism and quality.

For this reason, **starting on January 14th, 2022:**

- All new quotations will be issued by the Lenoir Elec company,
- All new orders or requests that may be received by Schneider Electric France will be automatically forwarded to Lenoir Elec company,

- All quotations issued previously to the date of **January 14th 2022** by Schneider Electric France, which are valid but have not yet given place to an order, shall remain valid and shall be transferred and handled by Lenoir Elec company,
- All orders for spare parts or claims in connection with the guarantees granted under the applicable general terms of sale must be sent to Lenoir Elec company.

These changes will require the creation of a separate supplier account in your databases. You will find hereafter the detailed contact as well as a presentation of Lenoir Elec company at the following address: <https://www.lenoir-elec.com>.

Your usual contact persons can be reached at the same addresses, telephone numbers and e-mail addresses for any other questions relating to this change or order placement.

For good form, we would be grateful if you could return a countersigned copy of this letter to each of us, after marking "*Agreed and accepted*".

Please accept, dear Madam, dear Sir, the assurance of our highest consideration.

At Grenoble, January 17th 2022

For Schneider Electric France
Ms Mia ESWARAN

For Lenoir Elec
M. Daniel TORRENTS

Présentation

For more than 30 years, Lenoir Elec has been providing very high performance solutions in the fields of electrical power contactors and switches. These solutions are based on various technologies acquired in recent decades and whose reputation is well established:

- 1991: Contactors on UNELEC Bars (from 80 to 8500 A / 1000 VAC-1500VDC)
- 2013: Ferraz Railway Switches (from 800 to 8000A / 750 & 1500 VDC)
- 2013: Fouilleret disconnectors (from 500 to 8500A / 3000 V)

The acquisition of the Variable Composition Contactors activity from Schneider therefore represents for Lenoir Elec an addition of its core business, and thus strengthens its position in this business.
